

PSCY132  
Summer Session 1, 2013  
Extra credit 3:

1. Choose one of the conditions below...
  - 5 alpha reductase deficiency
  - androgen insensitivity syndrome
  - cloacal exstrophy
  - genital accidents
  - congenital adrenal hyperplasia OR
  - others listed on the ISNA website
  
2. Locate a related research reference
  - ..from references given on the ISNA website
  - ..from [www.pubmed.gov](http://www.pubmed.gov) OR
  - ..other credible database
  
3. Your reference should provide useful information regarding the gender identity or gender role behavior for humans with the chosen condition. The reference could be old or new, a large study or with just a few (or even one) subjects.
  
4. Prepare 1 powerpoint slide that
  - ...identifies the reference
  - ...describes/summarizes the useful information including
    - what is the nature of the condition
    - what is the gender-related outcome
  
5. Email me ([mgorman@ucsd.edu](mailto:mgorman@ucsd.edu)) the slide by Monday night (7/15/2013). Be sure to put Hormones Extra Credit in the subject line.
  
6. Present to class in exactly 2 minutes: NOTE: STUDENTS NOTORIOUSLY INACCURATE AT ESTIMATING TIME!!!!!! CHECK YOURSELF BEFORE
  - ...in presentation evaluate the strength of any conclusions
